

EEF Meeting Minutes for March 21, 2019

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors
Meeting #2, March 21, 2019

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom) beginning at 16:00 UTC

Attendance

The following members of the board of directors were present (10/11): Francesco Cesarini, Benoît Chesneau, Maxim Fedorov, Frédéric Trottier-Hébert, Kenneth Lundin, Miriam Pena Villanueva, Peer Stritzinger, Sebastian Strollo, José Valim, and Alistair Woodman.

Desmond Bowe and Tristan Slougher were also present

Agenda Items

1. Vote of the minutes of the previous meeting

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the Thursday February 21, 2019 organizational meeting.

2. Vote on approving the Conflict of Interest Resolution document

RESOLVED, that the Erlang Ecosystem Foundation approve and adopt the Conflict of Resolution document, a copy of which is inserted with the minutes of this meeting.

3. Vote on approving working group. Tristan presented the proposal to form a “Building and Packaging” working group, which was approved in accordance with Article VII of the EEF Bylaws.

RESOLVED, that the Erlang Ecosystem Foundation approve the establishment of the “Building and Packaging” working group with the proposal which is inserted with the minutes of this meeting.

Other Business / Discussions

- Fred presented the “Working Group Proposal Process”
- The sponsorship levels were discussed, should vote on these on the next board meeting
- Budget also needs to be voted on on the next meeting, Alistair to prepare

Meeting Adjournment

The meeting was adjourned at 17:15 UTC.

Dated March 21, 2019

Secretary of the meeting: _____ Sebastian Strollo

RESOLUTION:

CONFLICTS OF INTEREST

SECTION 1. Purpose. The purpose of the conflict of interest policy is to protect this tax-exempt Organization's interest when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an officer or director of the Organization or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest application to nonprofit and charitable organizations.

SECTION 2. Definitions.

2.1 Interested Person. Any director, principal officer, or member of a committee with governing board delegated powers, who has a direct or indirect financial interest, as defined below, is an interested person.

2.2 Financial Interest. A person has a financial interest if the person has, directly or indirectly, through business, investment, or family: (a) An ownership or investment interest in any entity with which the Organization has a transaction or arrangement, (b) A compensation arrangement with the Organization or with any entity or individual with which the Organization has a transaction or arrangement, or (b) A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the Organization is negotiating a transaction or arrangement.

Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial. A financial interest is not necessarily a conflict of interest. Under Section 3.2, a person who has a financial interest may have a conflict of interest only if the appropriate governing board or committee decides that a conflict of interest exists.

SECTION 3. Procedures.

3.1 Duty to Disclose. In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all material facts to the directors and members of committees with governing board delegated powers considering the proposed transaction or arrangement.

3.2 Determining Whether a Conflict of Interest Exists. After disclosure of the financial

interest and all material facts, and after any discussion with the interested person, he/she shall leave the governing board or committee meeting while the determination of a conflict of interest is discussed and voted upon. The remaining board or committee members shall decide if a conflict of interest exists.

3.3 Procedures for Addressing the Conflict of Interest.

- (a) An interested person may make a presentation at the governing board or committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the transaction or arrangement involving the possible conflict of interest.
- (b) The chairperson of the governing board or committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement.
- (c) After exercising due diligence, the governing board or committee shall determine whether the Organization can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.
- (d) If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the governing board or committee shall determine by a majority vote of the disinterested directors whether the transaction or arrangement is in the Organization's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination it shall make its decision as to whether to enter into the transaction or arrangement.

3.4 Violations of the Conflicts of Interest Policy.

- (a) If the governing board or committee has reasonable cause to believe a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.
- (b) If, after hearing the member's response and after making further investigation as warranted by the circumstances, the governing board or committee determines the member has failed to disclose an actual or possible conflict of interest, it shall take appropriate disciplinary and corrective action.

SECTION 4. Records of the Proceedings. The minutes of the governing board and all committees with board delegated powers shall contain: (a) The names of the persons who disclosed or otherwise were found to have a financial interest in connection with an actual or

possible conflict of interest, the nature of the financial interest, any action taken to determine whether a conflict of interest is present, and the governing board's or committee's decision as to whether a conflict of interest in fact exists. (b) The names of the persons who were present for discussions and votes relating to the transaction or arrangement, the content of the discussion, including any alternatives to the proposed transaction or arrangement, and a record of any votes taken in connection with the proceedings.

SECTION 5. Compensation.

5.1 A voting member of the governing board who receives compensation, directly or indirectly, from the Organization is precluded from voting on matters pertaining to that member's compensation.

5.2 A voting member of any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the Organization for services is precluded from voting on matters pertaining to that member's compensation.

5.3 No voting member of the governing board or any committee whose jurisdiction includes compensation matters and who receives compensation, directly or indirectly, from the Organization, either individually or collectively, is prohibited from providing information to any committee regarding compensation.

5.4 The majority of our Board of Directors will be non-salaried and will not be related to salaried personnel or to parties providing services. In addition, all compensation decisions will be made by the Board of Directors.

5.5 Further, all compensation paid will be reasonable and will be based on the following factors: (a) the type and amount and type of compensation received by others in similar positions, (b) the compensation levels paid in our particular geographic community, (c) the amount of time the individual is spending in their position, (d) the expertise and other pertinent background of the individual, (e) the size and complexity of our organization, and (f) the need of our organization for the services of the particular individual

SECTION 6. Annual Statements. Each director, principal officer and member of a committee with governing board delegated powers shall annually sign a statement which affirms such person: (a) has received a copy of the conflicts of interest policy, (b) has read and understands the policy, has agreed to comply with the policy, and (d) understands the Organization is charitable and in order to maintain its federal tax exemption it must engage primarily in activities which accomplish one or more of its tax-exempt purposes.

SECTION 7. Periodic Reviews. To ensure the Organization operates in a manner consistent with charitable purposes and does not engage in activities that could jeopardize its tax-exempt status, periodic reviews shall be conducted. The periodic reviews shall, at a minimum, include the following subjects: (a) Whether compensation arrangements and benefits are reasonable,

based on competent survey information, and the result of arm's length bargaining; and (b) Whether partnerships, joint ventures, and arrangements with management organizations conform to the Organization's written policies, are properly recorded, reflect reasonable investment or payments for goods and services, further charitable purposes and do not result in inurement, impermissible private benefit or in an excess benefit transaction.

SECTION 8. Use of Outside Experts. When conducting the periodic reviews as provided for in Section 7, the Organization may, but need not, use outside advisors. If outside experts are used, their use⁴ shall not relieve the governing board of its responsibility for ensuring periodic reviews are conducted.

This Conflict of Interest Resolution was adopted by the board of directors or members of the organization on March 21, 2019.

Erlang Ecosystem Foundation - Building and Packaging Working Group Proposal

Working Group Name

Building and Packaging

Mission Statement

Evolve the tools in the ecosystem related to building and deploying code, with a strong focus on interoperability between BEAM languages

Main Objectives

- Provide improved options for managing and deploying packages, and other dependencies
- Compiling and Deploying mixed-languages projects

Benefits to the community

- Better integration between various languages: since languages like Erlang, Elixir, LFE, or Efene all tend to be used in slightly different parts of the industry, the ability to interoperate better across all languages benefits each language individually as well, by providing more mobility and a broader pool of libraries to use, along with a more uniform experience within each language
- The current tool ecosystem is generally understaffed within each language. By pooling resources, developer time, and focusing on interoperability, we can hope for better sustainability
- The current tool ecosystem requires infrastructure support for builds, documentation, and other various hosting costs that are often paid for by the maintainers directly. While some tools (i.e. hex.pm) can self-sustain from commercial customers, we believe that

some funding by the foundation would allow to focus on good solutions rather than just solutions that are affordable for individual maintainers.

Short term deliverables

- Support efforts related to EEP48 (documentation chunks) integration into build tools
- Instructions/tutorials for self-hosted hex package indexes
- Improved usability of cross-language dependencies in projects

Long term deliverables

- Figure out better configuration mechanisms for releases both in distillery and relx
- Provide hermetic builds for hex packages based on auto-generated local indexes
- Resolving issues regarding versioning conflicts between Rebar3 and mix-based packages
- relx/rebar3 feature equivalence with reltool
- Improved support for best practices around building and running releases for containerized environments

Why does this group require the Foundation

While tooling has been self-sufficient for years, there have been recent ongoing efforts at unifying part of the infrastructure required for packages. This has forced increased levels of communication across the various sub-communities of the ecosystem, and an attempt to align efforts.

Most of these turn out to be ad-hoc and done in private communication channels that lack visibility. By making these efforts public and traceable, we hope to get better results and involvement from all the involved communities, while providing more leverage when changes require involvement in other codebases, such as Erlang/OTP itself.

We also hope to be able to better align resources when it comes to providing improved accessibility, such as offering package mirrors or pre-built tool binaries, and possibly pool work towards shared libraries (i.e. hex_core, but also libraries offering portability for filesystems, and so on)

Initial list of volunteers

- Tristan Sloughter (Rebar3, relx)
- Wojtek Mach (Hex)
- Fred Hebert (Rebar3)
