

EEF Meeting Minutes, Thursday October 17, 2019

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors
Meeting #16, October 17, 2019

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom) beginning at 16:00 UTC

Attendance

The following members of the board of directors were present (10/11): Francesco Cesarini, Benoît Chesneau, Maxim Fedorov, Kenneth Lundin, Miriam Pena Villanueva, Frédéric Trottier-Hébert, Peer Stritzinger, Sebastian Strollo, José Valim, Alistair Woodman.

Desmond Bowe (marketing working group) was also present.

Agenda Items

1. Vote of the minutes of the previous meeting.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #15 held on October 3, 2019.

2. Intermediate actions:

1. The Foundation Group are ready with the application to the IRS, now it is up to review
3. Treasury update: about \$70K in the bank. All current sponsors (except Ericsson) has been invoiced.
4. Discussion around what kind and how often the working group should report. There are two needs: for communication (letting our sponsors and members know what we are working on) and for fiduciary oversight (for us as a board). Regarding reporting to the board what the working group is doing, Benoît will write a more specific proposal to amend the working group template with, that we can vote on for the next meeting.
5. Director's insurance: reach out to Alistair if you have issues with the questionnaire (which is needed to even get a quote).

6. Infrastructure WG will have their first meeting on Friday October 18. Nothing else to report.
7. Erlang Central. Francesco reported that the website is up and running, current stumbling block is GDPR limbo. WhatsApp has offered to fund the hosting. Erlang Central is intended as a complement to the main EEF website. Reach out to Francesco for more info.
8. Discussion around hiring someone to help with administrative duties. Outcome: collect list of things that could be possible to hire someone to do.
9. Grant request from Mohd Maqbool to be able to travel to a conference.

RESOLVED, that the Erlang Ecosystem Foundation approve the grant request for \$121 from Mohd Maqbool.

10. Discussion around grant proposals. There is a consensus that grant requests for technical work should go through the working groups (as the specific knowledge to evaluate the request most likely exists in a working group). This doesn't preclude the possibility that ideas may originate outside of a working group, but if a working group relevant to the topic of the proposal already exists, the applicant should be encouraged to seek support in that working group first.
 - If a proposal is too vague to even evaluate, then it is up to the sherpa to nudge the requestor to a working group to discuss, or propose that they extend the proposal
 - We should develop a basic template of things to include in an application
 - We need a quicker turnaround time when proposals are not complete enough, so that applicants can work on their proposals.
11. Budget discussion was tabled for next meeting.
12. Alistair declared the meeting adjourned at 17:11 UTC.

Dated October 17, 2019

Secretary of the meeting: _____ Sebastian Strollo

STATUS

Got approved from Education working group members: Adolfo Neto, Bryan Paxton, Todd Resudek, Paulo D Gonzalez, Simon Thompson, Francesco Cesarini, Laura M CAstro, Norberto Ortigoza, Ben max through mail and slack.

Unanimously approved by the board on 10/17/2019

Grant Proposal

First name : Mohd Maqbool

Last Name : Alam

Nick Name : Maqbool

Email Address : alammohdmaqbool@gmail.com

Phone Number : +919718327336

Organization Name :

Organization Email :

City : New Delhi

Region : Delhi

Postal Code : 110025

Country : India

Twitter :

Linkedin :

Website : <https://maqbool.net>

Bio :

I'm Maqbool, a developer from Delhi. I enjoy learning about programming language theory, distributed systems, Cloud Native technologies, and opensource. I am working towards building an elixir community in Delhi.

Grant Type : conference

Code of Conduct link : <https://functionalconf.com/code-of-conduct.html>

Grant Amount : 121

Payment Method : Paypal

Purpose

The purpose of this grant is to travel to give a talk at FunctionalConf 2019 which includes BEAM. I have been accepted as a speaker at the Functional Conf but they are not sponsoring the travel cost and I can't afford the cost at this moment of time. The talk I will be giving at this conference will be about building database driver in erlang/elixir. The conference is located in Bangalore will be on 14 Nov to 16 Nov. I need funds at least a week before the conference which is on 14 Nov 2019. From my talk, I would be able to share how it is easy to parse binary data which includes helping us build projects like MySQL driver. Hopefully from that talk, new developers will join our community and explore BEAM platform.

Beneficiaries : The main beneficiaries of the grant is the speaker. At this conference, there is an entire track of talks about BEAM related technologies such as erlang and elixir which will be held on 14 Nov 2019.

Report : I would love to write a blog post about the experience of the conference how EEF help played an important role in all of that.
