

EEF Meeting Minutes, Thursday February 20, 2020

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors
Meeting #24, February 20, 2020

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom) beginning at 16:00 UTC

Attendance

The following members of the board of directors were present (8/11): Benoît Chesneau, Kenneth Lundin, Miriam Pena Villanueva, Frédéric Trottier-Hébert, Peer Stritzinger, Sebastian Strollo, José Valim, Alistair Woodman.

Johnny Winn from the Marketing Working Group was also present.

Agenda Items

1. Vote of the minutes of the previous meeting.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #23 held on February 6, 2020. Unanimously approved..

2. Intermediate actions: none.

3. Treasury update: We have \$158K in the bank. Paid since last meeting: AdRoll. New sponsor since last meeting: NineFX \$2000. Still outstanding: Ericsson (due in a week), Brex (Alistair), TI Tokyo. Preliminary cost for diversity sponsorship of Code BEAM SF, \$600 (we had approved up to \$1000).

4. Calendaring Issues

1. Meeting March 5 collides with CodeBEAM SF, decided to skip meeting (next will be March 19).
2. Next meeting Daylight Saving time will be in effect in the US (March 8), but not yet in Europe (March 29), decided that next meeting will be 9am PDT, and 5pm CET (i.e. an hour earlier than usual in Europe).

5. Brief Updates

1. Insurance update: Alistair spoke to recommended broker, turns out we are a too small organization. Spoke to another company, turned out they did not cover CA. Will keep looking.
2. Foundation Group / IRS non-profit application: nothing to report.
3. Infrastructure WG update: Maxim was not able to join the meeting, but sent out the following status update before the meeting:
 1. *We have set up several FastMail e-mails. Works great, UI looks dated.*
 2. *We attempted a smooth migration from Google e-mail aliases to Fastmail, but failed, it's either one or another at the moment. Looking into possibility of creating all e-mails with Fastmail and setting redirection through Fastmail to existing Google Groups. We are using erlef.com (playground domain) to ensure it works before doing for erlef.org.*
 3. *We are setting up hosting with vultr, to move from GigaElixir that proved inconvenient.*
4. Google Summer of Code: José let us know that we are approved (still allowed to add ideas to wiki, student starts to apply in March). We need ideas and mentors!
5. Frank and Johnny are in touch about the embedded working group website.
6. Annual board election
 1. Fred presented the communication regarding the voting process. The intended audience are our members and it contains information on what the board does, how to run for the election, who are the outgoing board members etc. Plan is to put it up on the website. (Very well received, thanks Fred!) An alias, voting@erlef.org is to be setup for candidates and for those members wishing to claim voting rights by virtue of being a contributing member.
 2. Dates: it was decided to announce the election next Friday, open for candidates to announce themselves for two weeks (until Friday March 13) and then have a voting period of one week after that.
 3. Discussion: There was some concern regarding what would happen if both Alistair and Sebastian were to be voted out (for example what to do with the bank account, and mailing address). Both Alistair and Sebastian confirmed that

if they would be voted out they will help with the transition. (For example in such case the new treasurer and chairperson would be added as signatories to the bank account, the address can be updated, etc)

7. Presentation of proposal for a Job Board and hiring a community manager: Peer presented more details and was mostly asking for feedback from the board. No decision was made.
8. Alistair declared the meeting adjourned at 17:10 UTC.

Dated February 20, 2020

Secretary of the meeting: _____ Sebastian Strollo
