

EEF Meeting Minutes, Thursday May 14, 2020

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors Meeting #29, May 14, 2020

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 16:04 UTC.

Attendance

The following members of the board of directors were present (9/11): Francesco Cesarini, Maxim Fedorov, Kenneth Lundin, Frédéric Trottier-Hébert, Miriam Pena Villanueva, Peer Stritzinger, Sebastian Strollo, José Valim and Alistair Woodman.

Paulo Gonzalez from the education working group was also present.

Agenda Items

1. Vote of the minutes of the previous meeting.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #28 held on April 30, 2020. Unanimously approved.

2. Intermediate actions:

1. We have passed 500 members in Wild Apricot, so we had to up to the next payment level (we will also start paying yearly)
3. Treasury update: \$166K in the bank. No new sponsors. Board insurance has been paid.
4. Paulo Gonzales from the education working group presented a stipend request for a class of students to attend the Code BEAM V conference (request attached). It is noted that Erlang Solutions matches the stipend and pays half the cost for the tickets. Sponsoring students is a good investment for the future, and in this case it goes through the teacher who will make sure the students attend.

RESOLVED, that the Erlang Ecosystem Foundation approve the stipend request for \$1000 from Annette Bieniusa. The vote was 8 for and 1 (Francesco) abstain.

5. Fred presented a template / sample version of a working group report based on the long version of the instructions that have been discussed in previous meetings. The report was from the build and packaging working group and did a really good job of showing that making such a report will be useful for everyone and not a big burden for the working groups. Well received from everyone. A discussion around whether a current list of working group members had to be included ensued, the conclusion was that the important aspects are the health of the working group and what has been accomplished. Keeping track of which working groups there are (and it's members) is done on the website, and keeping track of "sweat equity voter status" is done through Wild Apricot.

RESOLVED, that the Erlang Ecosystem Foundation adopt the working group reporting process as outlined in the document "Reporting to the Board" and the template presented by Fred. Unanimously approved.

6. Any other business:
 1. Kenneth asked how many sponsors we have: 26.
 2. Erlang OTP version 23 is out, thank you Ericsson and the OTP team!
 3. Google Summer of Code: we got 2 projects out of 7-8 requested. Benoit will present a proposal on how to distribute "mentor stipends" in a future meeting.
7. Alistair declared the meeting adjourned at 17:03 UTC.

Dated May 14, 2020

Secretary of the meeting: _____ Sebastian Strollo
