

# EEF Meeting Minutes, Thursday July 9, 2020

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors  
Meeting #32, July 9, 2020

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 16:02 UTC.

---

## Attendance

The following members of the board of directors were present (10/11): Richard Carlsson, Francesco Cesarini, Benoît Chesneau, Maxim Fedorov, Peer Stritzinger, Sebastian Strollo, Frédéric Trottier-Hébert, José Valim, Miriam Pena Villanueva, and Alistair Woodman.

---

## Agenda Items

1. Vote of the minutes of the previous meeting.

*RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #31 held on June 25, 2020. Unanimously approved.*

2. Intermediate actions:

1. Alistair filed form SI-100 with the state of CA on June 30 (it was approved on July 2). The SI-100 “Statement of Information” is a form that California nonprofits must file every two years stating its address and its officers of the board. Essentially a “ping” to show that we still exist. No further action needed.
2. Sebastian has opened a Payoneer account (for receiving funds for mentors in the Google Summer of Code program).
3. Treasury and membership update: \$170k in the bank. Not much change in membership (Peer had to chase some members to fill out new credit card information for renewals). It was suggested that Sebastian start reporting the spending numbers (per workgroup) on these meetings.
4. SpawnFest: No updates. Fred to meet with Johnny (also inform the SpawnFest that we intend to sponsor).

5. Google Summer of Code update: Students and mentors have begun, first reports were submitted beginning of this week.
6. Annual General Meeting (“AGM”) update: Francesco offered to “co-locate” (in practice: synchronize with schedule) the AGM with Code BEAM Stockholm (which will be a virtual conference held on September 10-11). Alternatively we can hold it on a separate date and outside of the conference format, and another idea is to make the meeting “chat / text only” (e.g. using a forum and then do voting at a pre-determined end-time). There were no objections to this proposal in the meeting (but if you have any concerns reach out to Alistair directly). Alistair and Sebastian to keep planning for the meeting.
  1. Format and time-zones: the board generally still prefers two meeting times to accommodate for as many time zones as possible. Benoit raised the issue that two meetings can split the community and some may miss out on discussions (and especially voting). To avoid any voting issues we need to make sure that anything that should be voted on is known ahead of time (and that voting is done electronically with a known time-period for casting ballots).
7. Any other issues
  1. Voting for new Fellows: A blog post announcing the nominees went out, but there has not been any other activity around it. There has not been a vote, because of concerns that we would not reach the required 2/3 of members (i.e. not 2/3 of those voting) to pass. There was a long discussion around the mechanics of voting (how to make it easy, yet an active choice). Suggestions how to make it happen was to have a long(er) voting period and actively remind members (at least three times) to vote. In general all directors present are in favor of that fellows should be voted for individually and that it is up to the working group to nominate persons that have a chance of passing (i.e. there is no concern over having some nominees pass while others do not).
8. Alistair declared the meeting adjourned at 17:02 UTC.

Dated July 9, 2020

Secretary of the meeting: \_\_\_\_\_ Sebastian Strollo
