

EEF Meeting Minutes, Thursday May 13, 2021

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors Meeting #49, May 13, 2021

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 16:00 UTC.

Attendance

The following members of the board of directors were present (9/11): Richard Carlsson, Francesco Cesarini, Maxim Fedorov, Frédéric Trottier-Hébert, Peer Stritzinger, Sebastian Strollo, Bryan Paxton, Miriam Pena Villanueva, and Alistair Woodman.

Gera Borrás and Lucila Dominguez from Nayra were also present

Agenda Items

1. Vote of the minutes of the previous meeting.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #48 held on April 29, 2021. Unanimously approved.

2. Intermediate actions:

1. Alistair has filed for tax filing extensions

3. The team from Nayra presented what they have done so far.

4. Discussion around how to best use the marketing team from Nayra, and the marketing working group. Highlights: Bryan is the (reluctant) acting chair of the marketing working group. (Side discussion: how do we handle working groups, when they are not working - the board did not decide on any general guideline, we will deal with it on a case by case basis). Regarding marketing, the board needs to:

- Decide on a strategy - what do we want to achieve as a foundation (so we can base marketing around that):
- Board agreed to continue to try to work with the Nayra team (but that we should set "KPI:s" for the marketing team from Nayra based on our strategy)

- Board should start to reach out to working groups and ask what they expect from marcom (as well as start to use the process to ask for working group reports).

5. Alistair declared the meeting adjourned at 17:00 UTC.

Dated May 15, 2021

Secretary of the meeting: _____ Sebastian Strollo

Review

These months we've focused on:

- Knowing the work modality of the EEF.
- Analyze the existing communication to be able to raise the objectives and plan future communications.
- Communicate the elections.
- Cover the minute by minute of the CodeBEAM in TW.
- RT publications of interest to the EEF community.
- Consolidate the EEF community in TW.
- Survey and communication of events related to Elixir and Erlang technology.

In May we are working on:

- 1 Incorporation of events agenda in emails.
- 2 SpawnFest: flyers, header and content
- 3 CodeBEAM V Europe
- 4 Communication about sponsors

From the evaluation of our work we think it's necessary to concentrate on:

- 1 Content focused on quality and not on quantity.
- 2 Internal communication. Plan email communications as part of our schedules.
- 3 Institutional material: brochure, videos, etc.
- 4 Strengthen communication about working groups
- 5 LinkedIn Strategy
