

EEF Meeting Minutes, Thursday September 28, 2023

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors
Meeting #88, September 28, 2023

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 16:00 UTC.

Attendance

The following members of the board of directors were present (10/11): Francesco Cesarini, Maxim Fedorov, Amos King, Kenneth Lundin, Ben Marx, Bryan Paxton, Miriam Pena Villanueva, Peer Stritzinger. Sebastian Strollo (joined 20 minutes past the hour, at agenda item #5), and Alistair Woodman.

The following members of the board of directors were absent: Sophie DeBenedetto

As Sebastian reported that he would be late, Ben stepped in and took notes.

Agenda Items

1. Approval of minutes from previous meetings.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #87 held on September 14, 2023. Amos King abstained, approved by the remaining board members present (8).

2. Intermediate actions and activities:

1. Alistair reported that he has received a reply from the California Department of Justice regarding our “delinquent status”, with an extended deadline until Oct 20. Alistair has mailed the necessary paperwork and check by certified mail, it was received on Sep 24.
2. Alistair and Bryan has reached out to the co-op in Argentina who does our marketing and started investigating if they can also do some developer work on the EEF website (taking over some of the work that Bryan has been doing). Seems promising, Alistair and Bryan to work on a proposal.
3. EEF is now a member of OpenID Foundation

3. Treasury and Membership update: No treasury update (as Sebastian had not arrived yet). Membership update: 1553 active. Ongoing work on automating renewal (with notification).
4. Unanimous consent votes: none scheduled.
5. Stipend request process. Discussion around how to handle incoming stipend requests. The chain of incoming, assigning sherpa, bringing to the board, follow up, and paying the stipend needs a bit more structure. Sebastian explained that he has plenty to do with just the payments, and does not have bandwidth to handle the other steps. Lightweight automation proposed, for example Trello like the sponsorship working group uses. Improvement requests to the application form: add a “slogan” headline, and/or number (to be able to refer to the proposal), keep peoples private information private, some easy way to include in minutes when we vote on them. Discussion to continue over email.
6. Stipends:
 1. Support for student tickets to the Elixir Fortaleza Conf 2023 from Adolfo Neto. The request came in on July 27, but has not been up before the board earlier.

RESOLVED, that the Erlang Ecosystem Foundation approve the stipend request from Adolfo Neto to reimburse him for the student tickets at \$338. Unanimously approved.
 2. Ulf Wiger “app_ctrl” development proposal, \$19,000. The proposal came in the day before the board meeting, sherpa is Peer. Too soon to vote on the proposal, Bryan to take over sherpa role as Peer is going on vacation. No vote.
7. Any other topics:
 1. Kenneth reported that the OTP team at Ericsson has a new manager as of September 15, Tommy Andersson.
8. Alistair declared the meeting adjourned at 16:58 UTC.

Dated September 28, 2023

Secretary of the meeting: _____ Ben Marx and Sebastian Strollo

Attachments: Stipend Proposal from Adolfo Neto, 1 page

Name : Adolfo Neto

Organization Name : Federal University of Technology - Paraná

Country : Brazil

Website : <https://adolfont.github.io/>

Bio: I am an Associate Professor at the Federal University of Technology, Paraná. My research interests are software development communities and agile methods. I am co-creator and co-host of the Fronteiras da Engenharia de Software podcast, the Elixir em Foco podcast and Emílias Podcast - Women in Computing, all of them in Portuguese. I am also co-creator and co-host of the Hello, Erlang! podcast. I am a member of the Education, Training, & Adoption Working Group of the Erlang Ecosystem Foundation.

Purpose: I am the main organizer of Elixir Fortaleza Conf 2023. The event will be free for students of the Federal University of Ceará, where it will take place on September 21st and 22nd, 2023. The funds can be received until October 27th. Actually, it would be a refund, as I have already bought the tickets to Fortaleza. I have spent R\$ 1600 (~338 dollars) on the tickets. This stipend will help the community grow through an event that can attract young people, college students, to the community, as well as strengthen the existing community in the city of Fortaleza and the state of Ceará. I have not applied for any other form of sponsorship. We will try to stream the event, but we are not sure yet if this is going to be technically possible.

Report : Structure of the report: Briefly introduce the event, its purpose, and its significance. Date, location, and duration of the event. Overview of the organizing team and their roles. Collaborating organizations or individuals. Challenges faced during the planning phase and how they were addressed. Information about the schedule, sessions, activities, and speakers. Unexpected situations or changes that occurred during the event and how they were managed. Number of participants who attended the event. Details about the target audience and whether it was reached. Feedback from attendees, sponsors, and participants. Discussion on the overall success of the event and whether it met its objectives. The report will be posted on the event site <https://elixiremfocus.github.io/elixirfortaleza/> and shared on social media

Stipend Amount (USD) : 338

Beneficiaries : I will be the direct beneficiary of the stipend. We expect to have between 80 and 100 participants at the event, of which 20 to 30 will be undergraduate students. Two professors from the Federal University of Ceará are also part of the event's organization. The ELUG CE (Group of users of the functional programming languages Elixir and Erlang from Ceará: <https://elug-ce.github.io/>) group has 237 members in its Telegram group https://t.me/elug_ce. They have had many online meetings during the pandemic (the only Brazilian group to do so) but since then they have had no in-person meeting.
