

EEF Meeting Minutes, Thursday November 9, 2023

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors Meeting #91, November 9, 2023

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 17:06 UTC.

Attendance

The following members of the board of directors were present (8/11): Francesco Cesarini, Maxim Fedorov, Kenneth Lundin, Bryan Paxton, Miriam Pena Villanueva, Peer Stritzinger, Sebastian Strollo, and Alistair Woodman.

The following members of the board of directors were absent: Sophie DeBenedetto, Amos King, Ben Marx.

Also present was Kiko Fernandez-Reyes from the OTP team as an invited guest.

Agenda Items

1. Approval of minutes from previous meetings.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #88 held on September 28, 2023. Unanimously approved.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #89 held on October 12, 2023. Unanimously approved, Maxim abstained.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #90 held on October 26, 2023. Unanimously approved, Maxim and Francesco abstained.

2. Intermediate actions and activities:

1. The California Department of Justice has updated our status, we are no longer delinquent.

3. Treasury and Membership update: none this week.

4. Unanimous consent votes: none scheduled.

5. Stipends:

1. Updated from Bryan re Ulf Wiger's proposal: Ulf is working on an updated proposal, we would probably need feedback from the OTP team (on the updated proposal) before we can make any decision
2. Request from Sheharyar Naseer at GDG Lahore to sponsor DevFest conference in Pakistan with \$3,000. Since the conference is to take place in December, and there was too little information to either approve or reject the proposal outright, the board proposes to designate Francesco and Miriam to reach out to Sheharyar and ask follow up questions, and make a decision.

RESOLVED, that the Erlang Ecosystem Foundation approve the proposal to designate Francesco and Miriam as contact persons and at their discretion approve, or not approve, the request to sponsor the DevFest conference from Sheharyar Naseer (GDG Lahore) for up to \$3,000. Approved by vote: 6 for (Alistair, Francesco, Maxim, Miriam, Peer, Sebastian), 2 against (Bryan, Kenneth)

6. Annual General Meeting, AGM dates. Alistair checked availability the week of Nov 27, Mon/Tue was preferred - Alistair will send out poll among board.
7. Feedback from SpawnFest 2023. Went without a hitch, everybody involved had a good time. Now waiting for the judges and the result (should wrap up in about three weeks time).
8. Any other business: none
9. Alistair declared the meeting adjourned at 17:49 UTC.

Dated November 9, 2023

Secretary of the meeting: _____ Sebastian Strollo

1. Stipend request from Sheharyar Naseer, GDG Lahore (2 pages)

Stipend Proposal

Stipend Type : conference

First name : Sheharyar

Last Name : Naseer

Nick Name : Shey

Email Address : sheharyar@gdglahore.com

Organization Name : GDG Lahore

Organization Email : team@gdglahore.com

City : Lahore

Region : Punjab

Country : Pakistan

Twitter : @gdglahore

Linkedin : <https://www.linkedin.com/company/gdglahore/>

Website : <https://devfest.gdglahore.com>

Bio :

GDG Lahore has been the largest developer community in Pakistan for over 10 years, with us having the highest number of events, members, and attendees in the programming/software vertical. Early on, we were limited to specific technologies we could cover in our conferences and workshops, but over the past few years, we have ventured beyond this, covering a lot more technologies and verticals. Our recent focus has been Elixir. While Elixir/Erlang has gained a lot of popularity in the Americas and Europe, it still has a small footprint in SEA, specifically Pakistan. With 65% of the population under the age of 35, I believe EEF would be the perfect partner for us to support the emerging developer community in PK, and shift the focus of developers towards a modern language like Elixir.

Purpose

Location: LUMS, Lahore, Pakistan Date: December 9th, 2023 Amount: \$3,000 Deck: <https://bit.ly/46Zzuga> We need over \$7,000 but we are hoping EEF can cover part of it with \$3000. This amount goes toward all operational expenses with the main cost being the venue. We want to target 750+ people but we are only able to handle ~500 at the

moment and that's why we are looking for additional support. This amount will allow us to add a dedicated track for Web, with more talks covering Elixir. Note that this event is to support the community and is free for the majority of attendees. Breakdown of the stipend to include an additional 250+ people: \$3000 - additional conference room \$2000 - additional SMD screens/equipment/hardware \$2500 - additional food \$1000 - various expenses

Code of Conduct link :

Report : We have a standard format we follow for all our post-event reports/datasets for sponsors. They include: - Stats/graphs about attendees (gender, age range, experience, preferred technologies, etc.) - Breakdown of all sessions attended and interest shown by attendees - List of all attendees (who opted-in) interested in job opportunities, with their contact details (including email/phone/linkedin/github), work experience, etc. - Pre and post event coverage/views/reach details on conventional, digital, and social media - Collection of HQ photos/videos to be used by sponsors for their own marketing purposes

Stipend Amount (USD) : 3000

Beneficiaries : This stipend will benefit all 750+ attendees of DevFest. We had currently planned to include 1 Elixir web session and 1 Elixir AI session. With support from EEF, we will be able to add more Elixir sessions. Since EEF does not have official presence in Pakistan, we will allocate time and people to promote EEF, Elixir, and the Erlang ecosystem -- with both technical content as well swag/giveaways. If you have companies/partners interested in hiring remote talent, this will also open a pathway for you to find and hire top-quality talent directly from Pakistan. As mentioned above, Elixir has a small footprint in Pakistan, and we are the only ones covering Elixir in our events. This will give Elixir/Erlang engineers an opportunity to gather, network and learn.
