

EEF Meeting Minutes, Thursday January 18, 2024

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors
Meeting #94, January 18, 2024

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 17:06 UTC.

Attendance

The following members of the board of directors were present (10/11): Francesco Cesarini, Sophie DeBenedetto (joined 32 minutes past the hour), Maxim Fedorov, Amos King, Kenneth Lundin, Bryan Paxton, Miriam Pena Villanueva, Peer Stritzinger, Sebastian Strollo, and Alistair Woodman.

The following members of the board of directors were absent: Ben Marx.

Also present was Kiko Fernandez-Reyes from the OTP team as an invited guest.

Agenda Items

1. Approval of minutes from previous meetings.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #93 held on January 4, 2024. Eight approvals and one abstention (Maxim) (for a total of nine board members present at this point in the meeting).

2. Intermediate actions and activities:

1. The membership vote from the AGM was completed.

3. Unanimous consent votes: none scheduled.

4. Treasury and Membership update: Sebastian reported that there was not much change in the financials from last meeting, we have had a couple of sponsorship renewals (invoices went out) and a couple of outstanding sponsorships that have been paid. Membership update skipped.

5. AGM voting report: after the annual general meeting we ask our members to approve the Chair's Report and the Financial Report. This time we had 196 members eligible to vote, and we received 88 votes (i.e. 45%, according to our

charter 1/3 of the eligible members have to cast vote in order for it to be valid). 87 members voted YES to approve both the reports, and 1 (one) member voted NO. Thus the reports are considered approved. There were also some feedback, mostly praise, but some call for more transparency and clearer goals to which the EEF can measure success.

6. Sponsorship Working Group: Doing a bit better, but we need more sponsors. Francesco (again) asked everyone to help out, both with following up those that need to renew, as well as chasing new ones. We have a "sales issue", what is needed is the grunt work of chasing and "knocking on doors".
7. Stipends:
 1. Follow up on proposal from Lars Wikman to "create introductory educational and entertaining (edutainment) videos". Sophie has been in touch w Lars, and the suggestion is that we sponsor one video at \$3,000 to see if the EEF wants to continue. The opinion of the board was that If the EEF pays for the whole video, it should own (and presumably have a say in) the result. Sponsoring production of material is fine (we have done it before) but that can not be at the price asked. Suggested that Sophie suggests a lower amount and that the EEF is considered a sponsor of Lars videos.
 2. Follow up on Proposal from Paulo Valente: "new features for elixir-grpc/grpc, mainly stabilization of the Mint client". Bryan brought it up in the building and packaging working group, which had a long discussion about it, but in the end brought it back to the board for a vote. The opinion of the board was that even though it seems like a good proposal, the outcome risked being status quo (i.e. two different and somewhat (un)maintained gRPC implementations). The board would prefer a single gRPC solution that works well for all BEAM languages and that is supported.

RESOLVED, that the Erlang Ecosystem Foundation reject the proposal from Paulo Valente regarding the elixir grpc implementation. Vote count: 8 No and 1 (one) abstention (Miriam) out of 9 board members present (Francesco had to leave before the vote).

8. Any other business: none

9. Alistair declared the meeting adjourned at 18:13 UTC.

Dated January 18, 2024

Secretary of the meeting: _____ Sebastian Stollo
