

EEF Meeting Minutes, Thursday March 28, 2024

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors Meeting #96, March 28, 2024

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 16:04 UTC.

Attendance

The following members of the board of directors were present (8/11): Sophie DeBenedetto, Francesco Cesarini, Maxim Fedorov, Ben Marx. Kenneth Lundin, Miriam Pena Villanueva, Peer Stritzinger, Sebastian Strollo.

The following members of the board of directors were absent: Amos King, Bryan Paxton, Alistair Woodman.

Also present was Kiko Fernandez-Reyes from the OTP team as an invited guest.

Agenda Items

1. Approval of minutes from previous meetings.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #95 held on February 15, 2024. Unanimously approved.

2. Intermediate actions and activities:

1. Alistair has signed us up for Directors and Officers (D&O) insurance

3. Upcoming elections. This year cohort B, consisting of: Sophie DeBenedetto, Bryan Paxton, Miriam Pena, and Peer Stritzinger is up for election. In order to create a bit more interest, and give people some time to consider running for a seat on the board, the meeting decided to add a week between announcing and opening for candidate submission, the schedule will be:

- March 29 - announce elections
- April 5 - open candidate submission
- April 19 - last day to submit candidacy

- April 20 - open polls
- April 27 - last day of voting

Ben is in charge of running the elections, and will get the marketing team to send out announcement. Peer will help with access to Wild Apricot. A note to board members wanting to run for re-election: please submit your candidacy as early as possible, and we will put it up on the website - that way others who would like to run can get a sense of what it looks like.

4. Unanimous consent votes: none scheduled.

5. Stipends:

1. gRPC stipend request (still on hold). Bryan not here. Kiko reported that the OTP team has asked some questions - waiting for response.
2. Continue our sponsorship of Erlang and Elixir forums, for a total of \$2,598 for another year. We have been happy to sponsor the forums so far (it was also mentioned that we should consider using them more).

RESOLVED, that the Erlang Ecosystem Foundation approve the proposal to continue to sponsor the Erlang and Elixir forums for a total of \$2,598 for 2024. Unanimously approved.

3. Develop "A registry library for the Gleam programming language." from Raúl Chouza for \$300 (sherpa Amos). Amos was present to present the project, but he has indicated his support via email. Gleam is a growing community and not here to present, but suggested that we approve. After a short discussion it was decided to bring it to a vote in this meeting.

RESOLVED, that the Erlang Ecosystem Foundation approve the proposal from Raúl Chouza for \$300 to develop a registry library for the Gleam programming language. Vote: 7 for the motion, and 1 abstention (Francesco).

4. "Add support for LSTM federated ML and new infra of torch to nerlnet to extend compatibility" from David Leon at Ben Gurion University for \$25,000. Francesco has spoken to David and suggested that he reach out to the machine learning working group. As it stands the proposal is lacking, for example: a sherpa, support from a working group, details (like what programming language, benefits to the community, a development plan). The proposal can not be put to a vote as it stands.

6. ICANN grant proposal. Brief discussion to solicit feedback and ideas. Peer can reach out to DNSimple to see if they would be interested. Kiko mentioned that perhaps http/2 support could fit in the "reach internet" category - and bringing in full support for http/2 would also help any gRPC efforts.
7. Any other business: none
8. Sebastian declared the meeting adjourned at 16:50 UTC.

Dated March 28, 2024

Secretary of the meeting: _____ Sebastian Strollo

Stipend Proposal

Stipend Type : Development Work

Name : Raúl Chouza

Email Address : wychouza@gmail.com

City : Tijuana

Country : Mexico

Linkedin : <https://www.linkedin.com/in/raulhumberto/>

Website : <https://www.chourassicpark.xyz/>

Intended product of project :

A registry library for the Gleam programming language. The library already exists and is hosted on hex.pm as <https://hex.pm/packages/chip>, however it needs a couple of improvements now that Gleam reached 1.0.0 status.

Purpose

I would like to offer a reliable Registry solution for the Gleam community. We can always reach other registry solutions from erlang or elixir but having a resource that is gleam focused would allow for a typed approach to registering processes.

Development Plan

The job will be done by myself in a period of 2~3 months and the stages involve: - Modify the API to be more in-line with current elixir registry library. - Generally improve performance and memory consumption by running benchmarks. - Document guides and use-cases, make test cases more readable. - Should play well with gleam style of supervisors.

Dissemination : Of course I can announce a new version of the library in the Gleam Discord. But this could also be an opportunity for a talk in a conference or meetup or in a blog post.

Delivery Method : I could show results through the project's documentation sitting at: <https://hexdocs.pm/chip/> Both for pending goals to tackle but also describe performance tradeoffs along with guides and use-cases.

Stipend Amount (USD) : 300
