

EEF Meeting Minutes, Thursday May 9, 2024

Erlang Ecosystem Foundation, Minutes of a Regular Meeting of the Board of Directors
Meeting #99, May 9, 2024

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 16:04 UTC.

Attendance

The following members of the board of directors were present (8/11): Francesco Cesarini, Sophie DeBenedetto, Maxim Fedorov, Kenneth Lundin, Miriam Pena Villanueva, Bryan Paxton, Sebastian Strollo, and Alistair Woodman.

The following members of the board of directors were absent:, Amos King, Ben Marx, Peer Stritzinger.

Also present was Kiko Fernandez-Reyes as a newly elected board member

Agenda Items

1. Approval of minutes from previous meetings.

RESOLVED, that the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #98 held on April 25, 2024. Unanimously approved.

2. Intermediate actions:

1. Alistair will file for an extension to filing our taxes (extends the deadline from May 15 to November 15)
2. The AGM reports for 2023 are now up on the EEF website

3. Unanimous consent votes: none scheduled.

4. Financial report: Sebastian gave a quick update that we have about \$143,000 in the bank, and about \$90,000 in liabilities. Noted (as usual) that we need to be more proactive getting more sponsors.

5. Election results. Ben could not make the meeting to present the results (big thank you to Ben for running a smooth election process). The results have been posted on

the web, and are as follows: 72 members (representing approximately 41% of members eligible to vote) and the results were:

1. Miriam Pena (62 votes)
2. Peer Stritzinger (56 votes)
3. Kiko Fernandez-Reyes (53 votes)
4. Bryan Paxton (51 votes)
5. David Bernheisel (22 votes)

RESOLVED, that the sitting board of the Erlang Ecosystem Foundation approve the election results as presented and that the newly elected board members to cohort B are: Miriam Pena, Peer Stritzinger, Kiko Fernandez-Reyes, and Bryan Paxton. Unanimously approved.

The board would like to thank outgoing member Sophie DeBenedetto for her contributions to the EEF during the past three years. The board would also like to extend a warm welcome to newly elected Kiko Fernandez-Reyes.

6. Election of board officers (Chairperson, Treasurer, and Secretary) will be next board meeting. Alistair and Sebastian have indicated that they can keep going, but happy to step aside if there is interest.
7. Alistair reported on his meetings during the RSA conference.
8. Fundraising - we still need to find new companies to sponsor EEF. Short discussion around how to keep working on outbound and what do companies want to get out of sponsorship. Note there could be interest from some companies to sponsor particular projects (but that requires another level of administration from us).
9. Stipend requests:
 1. Certify the already ongoing work on oidcc to make sure it is actually compliant to FAPI 2.0 and publicly declare compatibility (FAPI 2.0 is the newest version of the specifications for use of OpenID Connect in the financial context). Request for \$2,000/year from Jonathan Männchen. Sherpa: Maxim.

RESOLVED, that the Erlang Ecosystem Foundation approve the proposal from Jonathan Männchen for \$2,000 to certify the oidcc client according to FAPI 2.0. Unanimously approved.

2. No progress on older stipends being discussed (grpc client, LSTM, ecto adapter for mnesia)

10. Any other business: none

11. Alistair declared the meeting adjourned at 17:00 UTC.

Dated May 9, 2024

Secretary of the meeting: _____ Sebastian Strollo

Attachments: FAPI 2.0 certification proposal (3 pages)

Stipend Proposal

Stipend Type : Other

First name : Jonatan

Last Name : Männchen

Nick Name : maennchen

Email Address : jonatan.maennchen@erlef.org

Website : maennchen.dev

Bio :

Member Security WG, Author of original OpenID stipend, and many things more.

Purpose

FAPI 2.0 is the newest version of the specifications for use of OpenID Connect in the financial context. FAPI specifies improvements to the security of OpenID to allow the usage in financial and other high-security contexts. This stipend proposes to certify the already ongoing work on oidcc to make sure it is actually spec compliant and publicly declare compatibility. The certifications to be certified are: * FAPI 2.0 Security Profile - https://openid.bitbucket.io/fapi/fapi-2_0-security-profile.html So far, most certified implementations are proprietary products and not open source libraries. As of this date, only Node.js & Java have open source projects available.

Report : A social media post via the ErIEF social channels would be great.

Stipend Amount (USD) : 2000

Beneficiaries : Supporting FAPI 2.0 signals to companies in industries that demand high security that the BEAM ecosystem can provide with high quality & certified tooling. This should help ease the introduction of BEAM languages into a company's stack. Examples of companies that FAPI is targeting are Banks, Insurances, Pension Funds and other Fintech companies. It can also be used in other high security industries like Government agencies, health providers etc. The financial institutions in Brazil are very active in the OpenID FAPI working group as it is used for "Open Banking Brazil". This could help Brazilian Elixir agencies to work on projects for those banks.

OpenID FAPI 2.0 Certification Stipend

- Stipend Type: Other
- Contact: Paul Swartz / Jonatan Männchen
- Costs: \$2,000 / year

Purpose

Describe the purpose of the stipend, location and date, including the date in which the funds must be received. We recommend to send the requests at minimum 12 weeks before the event so we have enough time to review, ask questions and send you the funds. Make sure you explain how this stipend is designed to help grow the community. Also let us know what other forms of sponsorship you have applied for. For workshops/trainings please include the staff:student ratio, the amount of hands-on training time and a lesson plan with learning outcomes for participants.

FAPI 2.0 is the newest version of the specifications for use of OpenID Connect in the financial context. FAPI specifies improvements to the security of OpenID to allow the usage in financial and other high-security contexts.

This stipend proposes to certify the already ongoing work on [oidcc](#) to make sure it is actually spec compliant and publicly declare compatibility.

The certifications to be certified are:

- [FAPI 2.0 Security Profile](#)

So far, most certified implementations are proprietary products and not open source libraries. As of this date, only Node.js & Java have open source projects available.

Beneficiaries

Describe who will be the beneficiaries of the stipend and the expected size of the event. For onsite events we would love to have an overview of other Beam related activities/meetups/trainings/conferences located in that area, the number of attendees, frequency and such.

Supporting FAPI 2.0 signals to companies in industries that demand high security that the BEAM ecosystem can provide with high quality & certified tooling. This should help ease the introduction of BEAM languages into a company's stack.

Examples of companies that FAPI is targeting are Banks, Insurances, Pension Funds and other Fintech companies. It can also be used in other high security industries like Government agencies, health providers etc.

The financial institutions in Brazil are very active in the OpenID FAPI working group as it is used for “Open Banking Brazil”. This could help Brazilian Elixir agencies to work on projects for those banks.

Costs

Specify here the stipend amount in detail. Please note that the EEF may only be able to provide partial funding for a proposal so let us know if this is acceptable to you. Be sure to include a breakdown of the amount you are requesting. We prefer to see what you plan on using the funds for. Example: 1200\$ total (\$700 for venue, \$300 for travel, \$200 for food). To thank you for your sponsorship, we will place the EEF logo on our site and offer you 3 free tickets to the event to distribute as you see fit.

- Partial Possible: No
- Depends on OpenID Foundation Membership (Part of Original OpenID Stipend)
- EEF is already mentioned as the primary benefactor of the library in its GitHub README & Documentation

The costs only contain the certification fees of the OpenID Foundation certification and do not include additional costs for work.

OpenID Certification Fee Schedule:

<https://openid.net/fee-schedule-to-certify-your-implementation/>

The fees are due every year in which any version of the library is certified.
