2 Agenda Items

2.1 Approval of minutes from previous meeting

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #122 held on November 20. Unanimously approved.

2.2 Intermediate actions

- Cleanup of infrastructure is still work in progress
- QuickBooks upgrade proceeding, Sebastian is moving migration forward

2.3 Unanimous Consent votes

None.

2.4 Finance update

Approximately \$100,000 in bank, \$25,000 outstanding from HU.

2.5 Membership update

Membership peaks: May, Sep. Currently 2123 members, 15 new basic memberships. Some are from grant participants signing up to access slack.

2.6 Annual General Meeting (AGM) preparations

- Alistair will send out notification within the next 24 hours
- Zoom drivers needed for each of the two sessions. Typically need two people to run the practicalities of the Zoom meeting (muting/unmuting, keep an eye on attendance etc). Two meetings, one morning CET, Lars volunteers. Lee volunteers for the US timezone meeting (to be held same time as the board meeting would have been held). As many board members as possible should attend.
- Alistair and Sebastian are working on annual reports

2.7 Fundraising and Sponsorship Working Group updates

- Around \$20,000 pending.
- We are Reaching end of year and the end of the renewal cycle, working on companies without prior sponsorship.
- Working with working group and project owners to improve their public materials to help with fundraising.
- STF (The ORT Sovereign Tech Fund) grant was approved, it will go through Peer
- Alpha & Omega grant signed and already invoiced (\$100,000), 80% will go to sub-contractors (pen testers)
- Working on NSF grant, wrap by dec 15. NSF contract language won't be available until next year. worst case is we'll decline)

2.8 FOSDEM 2026

FOSDEM 2026 is January 31 - February 1. Alistair received positive feedback from Aeva Black, there are panels and other talks we will be involved in.

2.9 Stipend requests

2.9.1 Erlang RED

Gerrit Riessen, Erlang RED for \$2,000.

Lee is Sherpa and explained that the projects include creating videos about the project (cost and time for video production is included) to expose it to the Node RED community (a potential new community). Lee proposed that we approve the stipend request.

RESOLVED: That the Erlang Ecosystem Foundation approve the stipend request for \$2,000 from Gerrit Riessen. Approved with seven votes in favor and one abstention (Bryan).

2.9.2 Hologram support

Bart Blast, Hologram support (Elixir to JavaScript) for \$10,000 (amount revised from original \$9,200). Lars is Sherpa.

Lars explained the proposal: Hologram is an alternative framework that allows Elixir code to run in the browser, with five years of development behind it. The request is now \$2,500 per month for four months. Discussion included interest in the project's innovation, but also concerns about production readiness, long-term sustainability, and the need for corporate sponsorship to ensure ongoing support. The board agreed that the funding should be structured around milestone-based deliverables rather than time-based payments. Lars will continue as sherpa and work with the submitter to define these milestones.

RESOLVED: That the Erlang Ecosystem Foundation sets aside a budget of no more than \$10,000 to support the stipend request from Bart Blast for the Hologram project. Approved with six votes in favor, and two abstentions (Bryan and Kiko).

2.9.3 Gleam documentation and Lustre documentation

- Louis Pilfold, Gleam documentation for \$8,000
- Hayleigh Thompson, Lustre documentation for \$6,000

Alistair is Sherpa for both. After a discussion around what the projects included, Alistair withdrew the proposals and will discuss more with the two regarding price-tag and what is included.
