

Minutes of a Regular Meeting of the Board of Directors

Meeting #126 held on Thursday February 26, 2026.

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 17:04 UTC.

1 Attendance

Members of the board of directors:

Name	Present	Absent	Comment
Lee S Barney	✓		
Francesco Cesarini	✓		
Zach Daniel	✓		(joined at 14 min past the hour, during SOSEF grant update)
Kiko Fernandez-Reyes	✓		
Amos King	✓		
Bryan Paxton		✓	
Miriam Pena Villanueva	✓		(joined at 30 min past the hour, after membership update)
Peer Stritzinger	✓		
Sebastian Strollo	✓		
Lars Wikman		✓	
Alistair Woodman	✓		
Total	9	2	

Also present:

- Paula Calgaro - Marcom Team
- Jonatan Männchen - CISO

2 Agenda Items

2.1 Approval of minutes from previous meeting

Skipped since previous meeting minutes not sent out ahead of the meeting

2.2 Intermediate actions

- Glean Gathering happened in Bristol UK (February 21)
- Jonatan is reaching out to Petr about AsmJit, with plans to also contact the PyTorch Foundation
- SOSEF grant work (SBOM project) has been completed

2.3 Unanimous Consent votes

The board tested a new Notion-based unanimous consent voting system. Some technical issues were reported on mobile devices, but the system worked well on desktop browsers. The board agreed to continue refining and using this system for future votes.

Three motions were proposed and voted on:

RESOLVED: That the Erlang Ecosystem Foundation join ECMA TC54 Working Group. Unanimously approved.

RESOLVED: That the Erlang Ecosystem Foundation join CNCF as a member (annual fee \$500). Unanimously approved.

RESOLVED: That the Erlang Ecosystem Foundation join OSADL as an Associate Member. Unanimously approved.

2.4 Finance update

Approximately \$97,000 in bank. Sebastian is implementing a new bookkeeping system to track restricted donations separately from general funds. The balance sheet now shows individual project funds including: Elixir Outreach Fund, Elixir language server (Expoert), Hex security audit (Alpha Omega grant), Numerical Elixir, OpenTelemetry, and SOSEF.

2.5 Membership update

Basic: 1957, Annual Supporting: 143, Lifetime Supporting: 29, Managing and Contributing: 13.

Membership is following the typical annual curve with peaks in May and September, relatively flat toward year end. Slight increase in annual supporting members, otherwise business as usual.

2.6 IPR transfer from Kent University

RESOLVED: That the Erlang Ecosystem Foundation accept the transfer of intellectual property (educational materials including videos and course content) from Kent University at zero cost. Unanimously approved.

The materials include videos featuring Francesco and Joe along with readings, quizzes, etc. The Education, Training, & Adoption Working Group believes these materials could be a foundation for increased learning and online community building. The materials may need some updating and modernization.

2.7 Process for EEF GitHub: forking and moving repos

Discussion about establishing a process for transferring community projects into the EEF GitHub organization. Specific case discussed: EGQL (Erlang GraphQL library) originally by Jesper Louis Andersen, currently maintained by Marco Mindek who wants to move it to EEF.

Key points discussed included maintenance responsibility, connection to EU CRA stewardship expectations, and IPR concerns (mitigated by EEF not taking copyright, access to scanning tools, and Apache 2 license protection).

RESOLVED: That the Erlang Ecosystem Foundation approve moving the EGQL project into the EEF GitHub organization with Marco Mindek as maintainer. Unanimously approved.

Future project transfers will use the unanimous consent voting process.

2.8 Fundraising and Sponsorship Working Group update

Alistair presented expected fundraising for the coming year based on 2024 analysis. Current available funds for stipends estimated at \$40-50k annually based on last year's fundraising. Goal is to increase to \$100k+ this year through expanded donor base.

The board discussed limiting current stipend funding to approximately \$10k until additional fundraising is secured.

2.9 Stipend requests

2.9.1 Previously approved stipends (noted for the record)

- Benjamin Philip: Upstreaming an EEF sponsored project to the ASF (copyright transfer as required by ASF terms sorted)
- Bart Blast: Hologram project wrap-up completed between Lars and Dan

2.9.2 On hold, not discussed

- Hayleigh Thompson: Lustre Documentation (\$6,000) (Alistair is contact)
- Zoey Pessanha: Anubis MCP project (\$2,100) - LGPL licensing issue needs to be worked out. Needs a sherpa.
- Zoey Pessanha, Taina (Community MVP) project \$2,000. Flagged due to LGPL licensing concerns. Needs a sherpa. Remaining in queue for future discussion.

2.9.3 New requests

Bitcrowd Bluesky stipend - Chris Beck, Build a scalable Bluesky dataplane with OTP, \$10,000.

RESOLVED: That the Erlang Ecosystem Foundation approve the stipend request for \$10,000 from Chris Beck / Bitcrowd for the Bluesky dataplane project. Unanimously approved.

Gleam Agent Skills - Louis Pilfold, \$8,000. Discussion raised concerns that this duplicates existing work. The board agreed that any solution should be cross-language compatible and centered on Hex packages rather than a separate downloadable index. Zach will reach out to Louis to discuss potentially reworking the proposal around the usage rules approach.

2.10 Upcoming Events

- ElixirConf EU, Malaga SP (April 23-24) - Francesco is the contact point. Underjord is sponsoring at Platinum level and offering booth space for EEF merchandise.
- ElixirConf US - Call for talks is now open
- Vancouver conference - End of March, ticket sales tracking ahead of typical pace

2.11 Any other business

None.

Alistair declared the meeting adjourned at 18:02 UTC.

Dated February 26, 2026

Secretary of the meeting: _____ Sebastian Strollo
