

Minutes of a Regular Meeting of the Board of Directors

Meeting #130 held on Thursday May 21, 2026.

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 15:06 UTC.

1 Attendance

Members of the board of directors:

Name	Present	Absent	Comment
Lee S Barney	✓		(joined at 35 min past the hour)
David Bernheisel	✓		
Francesco Cesarini		✓	
Zach Daniel	✓		
Kiko Fernandez-Reyes	✓		
Amos King		✓	
Bryan Paxton	✓		
Miriam Pena Villanueva		✓	
Peer Stritzinger		✓	
Sebastian Strollo	✓		
Lars Wikman	✓		
Alistair Woodman	✓		
Total	8	4	

Also present:

- Paula Calgaro - Marcom Team
- Daniel Janowski - Director Operations
- Jonatan Männchen - CISO

2 Agenda Items

2.1 Approval of minutes from previous meeting

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #127 held on March 12, 2026. Unanimously approved.

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #128 held on April 9, 2026. Unanimously approved.

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #129 held on May 7, 2026. Unanimously approved.

2.2 Intermediate actions

- **Taxes:** IRS Form 8868 filed and accepted, granting a 6-month extension on the 990 filing deadline. Filing has moved from 990EZ to the full 990 format. The board agreed that the 990 should be reviewed by the board before filing; this will be built into the process going forward.
- **CodeBEAM Lite Stockholm:** Conference was well attended. Unconference hosted at Entryfy's venue was well received. Planning underway for a Chicago unconference.
- **Re:publica and RIPE92:** Alistair attended both; follow-ups relevant to EU cyber resiliency law and related policy to be posted to the relevant Slack channels.
- **Alpha & Omega funding:** Provisional approval received for funding covering approximately 6 months of Jonatan's time, plus pass-through funding for Peter Ullrich and Eric Meadows-Jönsson. Not yet signed.

2.3 Unanimous Consent votes

None.

2.4 Finance update

Not discussed.

2.5 Membership update

Not discussed (Peer absent).

2.6 2026 Board Election

Bryan Paxton presented the results: quorum was reached (97 eligible members cast their vote). The result was as follows:

1. Alistair Woodman (77)
2. Francesco Cesarini (75)
3. David Bernheisel (59)
4. Amos King (51)
5. Jon Carstens (34)
6. Greg Mefford (24)
7. Nathan Hessler (20)

8. Duane Strikwerda (10)

Which means that Alistair Woodman, Francesco Cesarini, David Bernheisel, and Amos King are elected to Cohort A.

RESOLVED: That the sitting board of the Erlang Ecosystem Foundation approve the election results as presented and that the newly elected board members to Cohort A are: Alistair Woodman, Francesco Cesarini, David Bernheisel, and Amos King. Unanimously approved.

The member vote also included an approval vote for Sebastian Strollo as Treasurer Director per Section 5.5.1 of the bylaws. 97 votes were cast: 97 Yes, 0 No. Sebastian Strollo is hereby approved as Treasurer Director.

The board gave a warm welcome to David Bernheisel as the new member of Cohort A. David introduced himself as an Elixir developer of 8 years, co-host of the Thinking Elixir podcast (300+ episodes, 6 years running), and with a background in software consultancy and account management.

The election platform (Wild Apricot) experienced some friction and Peer is looking into alternative platforms for future elections.

Officer positions (President, Secretary) to be elected at the next board meeting. Alistair indicated he is willing to stand as President again. Alistair will reach out to board members individually regarding the other officer roles ahead of the next meeting.

2.7 Security update

Jonatan reported approximately 30 CVEs filed this quarter with 25 currently in progress. Peter Ullrich's analysis of the top 250 Hex packages indicates an estimated backlog of 300–400 additional CVEs (roughly two-thirds of findings are confirmed CVEs). The AI-assisted tooling in use is Claude Opus with the scrutineer harness — not a specialized model. With Alpha & Omega funding, Peter Ullrich will become more involved in CVE handling, which should increase throughput.

Hex.pm now displays vulnerability information on package pages. Integration into the `mix` CLI (warning on package installation) is one Hex release away for Elixir. A minimum package age feature for `mix .exs` (implemented by Eric Meadows-Jönsson) is also pending release.

2.8 Fundraising and Sponsorship Working Group update

Extensive discussion of funding strategy, interleaved with the security update. Key points:

- Estimated need for adequate security staffing is \$500K–\$1M/year to support 3–5 full-time staff.

- The board discussed breadth (more companies contributing at any level) vs. depth (higher-tier sponsors). Consensus: pursue both — add higher sponsorship tiers, and work to reduce free-ridership.
- EEF co-branding with Hex.pm was discussed as a way to make EEF security contributions more visible to everyday developers (e.g. surfacing CNA attributions and vulnerability notices directly in Hex and mix tooling).
- A package backstop concept was raised: EEF as a security backstop for popular unmaintained packages. Interest was expressed but concerns noted around capacity, liability, and scope.
- Zach reported that a Remedy sponsorship is expected to come through shortly.
- Alistair has engaged Cisco and Juniper directly on sponsorship.
- Action: Dan to invite board members to the sponsorship working group next week to continue the conversation.

2.9 Stipend requests

Not discussed.

2.10 Upcoming Events

Not discussed.

2.11 Any other business

None.

Alistair declared the meeting adjourned at 16:04 UTC.

Dated May 21, 2026

Secretary of the meeting: _____ Sebastian Stollo
