

Erlang Ecosystem Foundation

Annual General Meeting

November 2022

Chair's Report

This is the 3rd Annual Report for the Erlang Ecosystem Foundation.

Genesis

The Foundation officially filed its articles of incorporation as a California Nonprofit Public Benefit Corporation on Jan 19th, 2019 and it was duly registered as such on Jan 23rd, 2019. As of May 29th, 2020 we also received formal approval from the IRS as a US 501(c)(3) not-for-profit under federal tax laws.

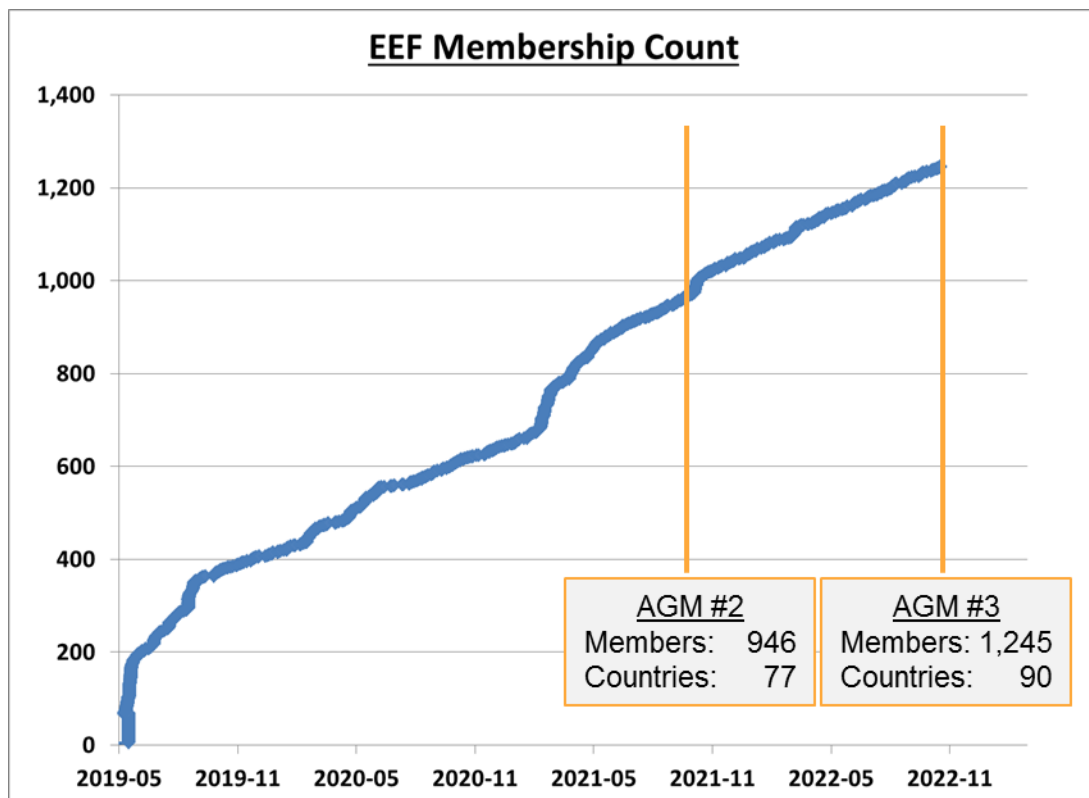

Our Members

Per our charter and bylaws, we are a community benefit organization open to all persons interested in the well-being of the BEAM languages and the developers using them.

Member list

Summary Keyword search Advanced search Saved searches									
Level	Total	Active	Renewal overdue	Lapsed	Pending			New in last	
					New	Renewal	Level change	7 days	30 days
Annual Supporting Membership	134	132	2	-	2	-	-	-	1
Basic Membership	1069	1069	-	-	-	-	-	6	17
Board	7	7	-	-	-	-	-	-	-
Fellow	2	2	-	-	-	-	-	-	-
Lifetime Supporting Membership	18	18	-	-	-	-	-	-	-
Managing and Contributing	15	15	1	-	-	-	-	-	-
Total	1245	1243	3	-	2	-	-	6	18

As of the time of this report we have 1,245 members. This is an increase of 299 members or a CARG 26% growth since the last AGM (over the last 14 months). In spite of Covid and the ensuing lack of face-to-face interactions, the community has still been capable of expanding (see graph below).

Membership now covers 90 countries up from 77 countries since the last AGM. The table below shows the ranking of membership numbers per country.

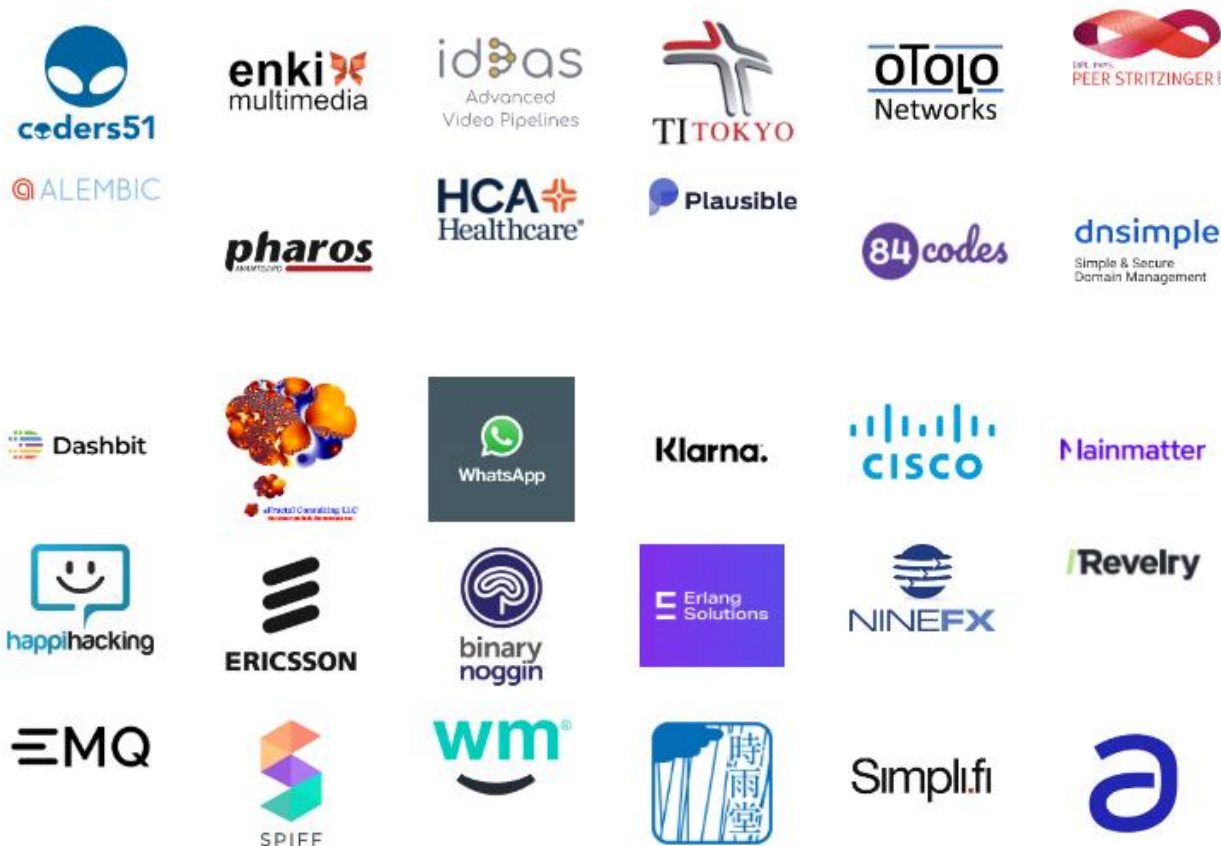

Rank	Country
1	United States
2	Brazil
3	United Kingdom
4	India
5	Germany
6	Canada
7	Sweden
8	Japan
9	Poland
10	Argentina
11	Italy
12	Spain
13	China
14	France
15	Netherlands
16	Australia
17	Russian Federation
18	Portugal
19	Switzerland
20	Mexico

Unsurprisingly, the distribution of countries reflects population size, density of software engineers and the historic centers of Erlang's adoption around the Baltic Region and Elixir's start in South America. There is also a 'long tail' of 26 countries (up from 18 countries) with only one member. This applies to Albania; Angola; Bahamas; Cuba; Czech Republic; Egypt; El Salvador; Fiji; Honduras; Iceland; Iran; Luxembourg; Macedonia; Moldova; Montenegro; Panama; Papua New Guinea; Paraguay; Philippines; Puerto Rico; Saudi Arabia; Serbia; Slovakia; Togo; Zambia and Zimbabwe.

In regards to expanding the membership, we will continue to focus on outreach and inclusivity. Several of our working groups, especially the Marketing and Education, Training & Adoption WGs have charters and have allocated budgets to promote diversity. Members with an interest in helping with diversity are encouraged to reach out to these two working groups.

Our Sponsors

We are grateful to our sponsors for their financial support. They are instrumental in putting the Foundation on a sound financial footing and allow us to invest in community development and future growth. The number of sponsors increased from 26 to 30 between the 2nd and 3rd AGMs

The Sponsorship WG continues its focus on increasing our outreach to companies and other not-for-profits in the software development space.

Members working for companies who are heavy users of Elixir and Erlang are encouraged to broker relationships with their executives and the Sponsorship WG. We are interested in creating a virtuous circle of mutual interest and increasing the rate of the community's expansion. The number one feedback from our sponsors is for the EEF to help increase the available pool of BEAM developers.

The Working Groups

At the moment, there are still 12 chartered Working Groups within the EEF. This number hasn't changed since the last AGM. The Working Groups are:

- Marketing
- Security
- Build and Packaging
- Fellowship
- Sponsorship
- Observability
- Education, Training & Adoption
- Embedded Systems
- Infrastructure
- Language Interoperability
- External Process Communication, Interoperability & Robustness (EPC)
- Machine Learning

Some of the Working Groups have become a 'little quiet' over the last year or so. Personally, I think this related both to a form of 'Covid Zoom meeting fatigue' and a post-Covid bounce of people 'just catching up with the real world'. The present WGs are interested in more active members joining them and any member with a specific interest is encouraged to get involved

The board continues to be open to the chartering of new WGs from members who are passionate about a specific area and are willing to self-organize.

The Board

The board has held 72 meetings since the founding meeting on Thursday Feb 21, 2019.

In March 2022 we held our Cohort A reelection process which led to one new board member, Ben Marx, being elected. The board warmly thanks the departing board member, Richard Carlsson, for his time serving on the board. Previous ex-board members, Benoît Chesneau & José Valim, are still very active in various working groups.

The following are the major regulatory compliance milestones that occurred between the 2nd and 3rd AGMs:

- 2021-11-15; 2020 IRS 990 and CA FTB 199 filed
- 2022-10-17; 2021 IRS 990 and CA FTB 199 filed

Pursuant to the EEF Bylaws the following major actions were taken:

- 2022-03 Board elections by the voting members for cohort A per Section 5.5 & 14.8
(Maxim Fedorov, Kenneth Lundin, and Ben Marx were duly elected)
President & Secretary/Treasurer elections by the board per Section 5.5.1 & 14.8
(Sebastian Strollo (Secretary/Treasurer) and Alistair Woodman (President) were duly re-elected)
- 2022-09 The remote 3rd AGM was scheduled for 2022-11-03/04 per Section 3.12 & 14.8

For the 2021 tax year and up to this AGM, the board also approved grants and stipends requested by various WGs for following areas:

Outreach Funds (actually paid out)

- \$ 2,500 Code Beam stipend for students and underrepresented Feb 2021
- \$ 3,000 SpawnFest 2021 sponsorship Apr 2021
- \$ 550 Support the Foco Podcast Mar 2022
- \$ 1,000 Support Code BEAM Lite A Coruña Jun 2022
- \$ 3,000 SpawnFest 2022 sponsorship Sep 2022
- \$ 2,850 Various Travel Stipends (to presenters at conferences) all 2022
- \$ 4,000 Conference tickets for students & under-represented groups 2021/22

Development Funds (actually paid out)

- \$ 3,000 Improved float to string conversion Jan 2021
- \$ 10,000 Porting the BEAM to the ROS, Robot Operating System Mar 2021
- \$ 5,000 Implement Ryu Algorithm Apr 2021
- \$ 3,700 Add Language Server support to Wrangler May 2021
- \$ 3,500 PromEx (observability solution for Elixir) Jun 2021
- \$ 2,800 ExDoc Improvements Oct 2021
- \$ 20,000 EVision - A computer vision library Jun 2022
- \$ 10,000 Jobs Board for the erlef.org website Aug 2022
- \$ 5,000 Automated Checking of Refactoring Correctness Sep 2022

Starting in February 2021, the board also approved an ongoing budget for an external marcom agency. The resources, Nayra & El Maizal Coop, are based in Argentina and have been providing marketing communications services to the Marketing and Sponsorship WGs as well as the board.

Ongoing funding has also continued to the Infrastructure and Marketing WGs to improve the general IT infrastructure and build out the **erlef.org** website. The following features are the result of these ongoing funding

- Basic working group management tools
- Working Group report support
 - Backed by git, we'll be utilizing this abstraction for other forthcoming features
- Erlef.org email for members program
- Slack invite support for erlef, erlanger, and lfe slack
- Basic calendar integration
- Conference perk program for members
- Misc. additions and improvements
 - Security audit and improvements

- Community page
 - Public records page
 - Fellows gallery
 - Public site analytics
 - Internal error logging and alerts
 - Object storage support for media uploads
 - General UI/UX improvements
- (in development) Job Board

Motion to the AGM:

The President and Secretary/Treasurer are recommending that the voting members ratify the actions of the Board and Officers of the EEF as being in the interests of the EEF and in accordance with the Bylaws.

Looking Forward

The board is looking at several avenues for activities over the next 6-to-12 months.

1) Jobs Board:

Place for posting of job offers and job interests for members and sponsors

2) How to get more involvement:

We recognize that participation has been especially difficult due to Covid-19 and we are looking for mechanisms of enlivening the WGs. Feedback and suggestions from the members in this regard are welcome, especially if we can get insight about regional or country specific opportunities.

3) More directed funding:

The board is asking the WGs to prioritize projects that they feel that the EEF should be supporting

4) Spending money:

Again due to Covid-19, most WGs are behind on their budget allocations. We intend to encourage more WG activity.

Best Regards

Alistair Woodman
Chair and President of the EEF
