Bryan Paxton	✓		
Miriam Pena Villanueva	✓		
Peer Stritzinger	✓		
Sebastian Strollo	✓		
Lars Wikman		✓	
Alistair Woodman	✓		
Total	10	2	

Also present:

- Paula Calgaro - Marcom Team
- Daniel Janowski - Director Operations
- Jonatan Männchen - CISO

2 Agenda Items

2.1 Approval of minutes from previous meeting

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #130 held on May 21, 2026 (git: a33d590). Approved, with Peer Stritzinger abstaining (absent from that meeting).

2.2 Intermediate actions

- **IRS 990:** Work ongoing; end-of-June target.
- **OpenSSF Security Summit:** Alistair attended June 9th in Brussels (AI-induced CVE backlogs, EU Cyber Resilience Act, European sovereign funding for open-source foundations).

- **Alpha & Omega funding:** \$125K received. Alistair and Sebastian developing a longer-term business plan; target is next board meeting or within four weeks.

2.3 Unanimous Consent votes

None.

2.4 Finance update

The Alpha & Omega \$125K has arrived. A business plan covering longer-term financials is in progress and will be shared with the board within four weeks.

2.5 Membership update

Peer presented membership numbers. Membership continues to grow but growth has flattened somewhat compared to prior years.

2.6 Board Officer Elections

The candidates put forward were:

- **President:** Alistair Woodman
- **Secretary:** Sebastian Stollo
- **Treasurer:** Sebastian Stollo

No votes against or abstentions were recorded for any position.

RESOLVED: That the Erlang Ecosystem Foundation elect Alistair Woodman as President, Sebastian Stollo as Secretary, and Sebastian Stollo as Treasurer, each for a further 12-month term. Unanimously approved.

Alistair noted an interest in developing a succession plan for these roles.

2.7 CNA/CVE Security Update

Jonatan reported approximately 80 CVEs filed this quarter, up from ~30 at the previous meeting, at a pace of 2–3 per day. A substantial backlog remains; with Alpha & Omega funding now flowing, Peter Ullrich will take on more hands-on CVE work, shifting Jonatan into a supervisory role. Near-term priority is process automation. Work is underway with Eric Meadows-Jönsson on a dependency policies feature for Elixir that will surface CVE warnings in the `mix CLI`; Gleam and rebar equivalents are planned.

2.8 Fundraising and Sponsorship WG Update

The working group has continued meeting. The board discussed the EEF's CNA/CVE security work as the central sponsorship message, and the Zig Foundation (~\$1M/year revenue) as a data point re

the EEF's fundraising target. The board agreed that past stipend outcomes should be made more prominently visible on the EEF website as a fundraising asset.

David presented a redesigned sponsorship site (sponsor.erlef.org, currently in staging), with revised donation level benchmarks approximately doubling current levels (based on ~0.4% of company revenue) except for the lowest tier. Enterprise sponsors are directed to engage directly. Dan's analysis suggests the EEF's \$500K annual goal is achievable at the proposed numbers given the current sponsor registry. The board broadly supported the direction; Alistair gave a strong yellow light to proceed, with a target of finalising the donation level structure within 2–4 weeks pending sensitivity analysis on the existing sponsor base.

2.9 Stipend requests

None.

2.10 Any other business

None.

Alistair declared the meeting adjourned at 17:00 UTC.

Dated June 18, 2026

Secretary of the meeting: _____ Sebastian Stollo
