Minutes of a Regular Meeting of the Board of Directors

Meeting #134 held on Thursday November 05, 2026.

A regular meeting of the Erlang Ecosystem Foundation was held over group conference call (Zoom). The meeting began at 17:05 UTC.

1 Attendance

Members of the board of directors:

Name	Present	Absent	Comment
Lee S Barney	✓		left after item 2.1 (teaching class)
David Bernheisel	✓		
Francesco Cesarini	✓		
Zach Daniel		✓	excused
Kiko Fernandez-Reyes		✓	excused
Amos King	✓		
Bryan Paxton	✓		
Miriam Pena Villanueva		✓	
Peer Stritzinger	✓		
Sebastian Strollo	✓		
Lars Wikman		✓	excused
Alistair Woodman	✓		
Total	8	4	

Also present:

- Daniel Janowski - Director Operations
- Jonatan Männchen - CISO

2 Agenda Items

2.1 Notice from Lee Barney

Lee Barney addressed the board to share personal news: following a stroke and subsequent recovery, he is retiring from his position at BYU at the end of December 2026 and will be living in the Philippines for two years, making attendance at board meetings impractical. Lee attended the opening of the meeting and left after his item. The board thanked Lee for his service and wished him well.

2.2 Approval of minutes from previous meetings

Two sets of minutes were outstanding.

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #132 held on July 02, 2026 (git: 889811f). Unanimously approved.

RESOLVED: That the Erlang Ecosystem Foundation approve the minutes as presented as representing a true and accurate record of the board meeting #133 held on August 13, 2026 (git: 835a64b). Unanimously approved.

2.3 Intermediate actions

- **IRS 990:** More complex than anticipated (moved from 990-EZ to full format). Target completion November 10, 2026, with board review to follow.
- **Event activity:** Board members and staff attended numerous events since the last meeting, including Goatmire/AshConf, Code BEAM Europe (Haarlem), and multiple Linux Foundation events in Prague.

2.4 Unanimous Consent votes

None.

2.5 Membership update

Peer Stritzinger presented a new membership analytics dashboard built against anonymised Wild Apricot data. Current figures: 2,324 total members; 227 supporting members. Membership has grown over the last six months relative to the prior six months. The largest membership peak in 2026 was ElixirConf US, followed by Code BEAM Europe (Haarlem). Goatmire generated a smaller peak, likely reflecting that most attendees were already members.

2.6 Finance update

Sebastian Strollo reported an approximate current bank balance of $26K, with outstanding receivables and payables bringing the net working position to approximately $11.5K, plus reserves held against previously approved stipends and several invoices pending issue.

Alistair Woodman reported that Alpha & Omega have agreed in principle to renew their grant to cover Jonatan Männchen and Peter Ullrich's CNA work for a further six months at $200,000. The agreement is not yet signed. The NSF grant remains outstanding, with its status uncertain.

The board agreed that the current financial position warrants maintaining spending discipline: no new stipends unless directly tied to critical security work, and infrastructure costs to be kept minimal.

2.7 CNA/CVE Security Update

Jonatan Männchen reported:

- CVE output is trending slightly down for the first time; full-year estimate is approximately 500–550 CVEs. This reflects output throughput, not underlying volume.
- GitHub Security Advisory integration has been completed, automating a significant portion of CVE intake and shifting more of the work back to maintainers.
- Hex workload identity / trusted publishing is rolling out imminently, allowing CI pipelines to authenticate with Hex without pre-shared keys.
- The CNA tooling has drawn interest from CPAN as a potential second adopter; this may broaden the tool's development base.

2.8 Marketing and Operations update

Dan Janowski reported:

- Recurring donations via every.org have reached $234 per month.
- Marketing Working Group activities: an ecosystem map (community channels, Discord, Slack, Telegram, IRC) is in progress; introductory ecosystem content is being developed with language maintainers and the education working group; EEF has a half-day dev room at FOSDEM 2027.
- Zoom accounts reduced from seven to three, saving approximately $80 per month.
- Renewed sponsorship commitments from several sponsors, and one existing sponsor increased their donation amount.

2.9 Sponsorship WG update

The updated sponsorship tier structure is live at sponsor.erlef.org. One sponsor requested monthly payment instalments for a $10K annual donation; Sebastian Strollo confirmed this can be accommodated.

2.10 Stipend requests

Deferred.

2.11 Any other business

None.

Alistair declared the meeting adjourned at 17:58 UTC.
